## London Bombings 7<sup>th</sup> July 2005

To all concerned

As Chairman of the British Association for Immediate Care and of BASICS (London) I would like to thank all of you for your help and assistance at the tragic events in London yesterday.

I have been fully briefed by both Gold (Dr Hines and Dr Brown) and Silver (Dr Davies) doctors and I have been extremely impressed with your performance throughout this difficult event. I am convinced that BASICS and HEMS teams played a vital role in the success of the medical care at scene.

I have received communications from all over the world expressing sympathy but congratulating us on a totally professional response.

I am proud to be Chairman of the British Association for Immediate Care and of BASICS (London) and to be an Honorary Consultant for HEMS.

My personal thanks and best wishes

David Zideman  
Chairman  
British Association for Immediate Care
