## BASICS Waterproof Solution

Rig Equipment Ltd is a leading manufacturer & solutions provider for specialist emergency services & defence professionals

The company has worked in collaboration with BASICS professionals to achieve a smart and functional corporate appearance for the BASICS uniform.

A solution that works through wearing a layered system was considered more practical than the historic solutions that were found to be too hot when being deployed in more temperate times of the year.

The Company is pleased to present to you the all new waterproof and breathable all season jacket with a zip on/off fully lined hood.

Copious storage in the Napoleon style pockets and huge cargo hip pockets

Please contact us for further information or for a no obligation visit by our representative.

Designed with the professional end user in mind

**Made in England**

**For Professionals**
